WORK EXPERIENCE

Junior Quality Engineer — Kayease | Intern - Full time

Dec 2025 – Now

- Performed Manual, Functional, Regression, Smoke, UI, Cross-Browser and Mobile Application Testing across web and mobile platforms.
- Ran end-to-end testing of Sales Management Systems across Admin, Manager, Sales Agent, Distributor and Accounts roles.
- Tested a School ERP across five roles — access control, attendance, dashboards and academic workflows.
- Validated Teacher and Student mobile apps, including Face Recognition Attendance, attendance management and dashboards.
- Tested Shopify themes, ThemeForest templates, e-commerce sites and internal web apps for responsiveness, usability and production readiness.
- Logged, tracked and verified defects with developers to ensure high-quality releases.

Web Developer — Saatvik Fincorp | Intern

May – July 2025

- Led a 3-person team to design, build and launch a 10+ page business website from scratch.
- Built customer testimonials, dark/light mode toggle and a responsive navbar, increasing user retention by 35%.
- Grew site traffic to 1,000+ users in the first month, boosting online visibility.
- Manually tested the site across devices and browsers for functionality, responsiveness and usability pre-launch.
- Designed test cases for critical flows, reported UI and functional bugs, and verified fixes.

EDUCATION

- **Poornima University** — BCA in Artificial Intelligence & Data Science Jaipur, Rajasthan
CGPA: 8.20/10
- **Private School** — Senior Secondary (12th) Noida, Uttar Pradesh
Percentage: 72% in PCM/IP
- **Modern School (CBSE)** — Secondary Education (10th) Noida, Uttar Pradesh
Percentage: 74.5% (All Subjects)

SKILLS

- **Languages:** SQL, Python, HTML, CSS, JavaScript
- **Testing:** Manual, Functional, Regression, Smoke, Sanity, Integration, System & UAT Testing; Test Case/Scenario Design; Bug Reporting & Defect Tracking; Cross-Browser & Responsive Testing; API Testing (Basics); Auth & OTP Flow Testing; Automation Testing, K6
- **Tools & Technologies:** Jira, Postman, Git & GitHub, VS Code, Chrome DevTools, Prompt Engineering
- **Databases & Platforms:** MySQL, PostgreSQL (Basics), Database Testing
- **Soft Skills:** Analytical Thinking, Attention to Detail, Problem Solving, Communication, Leadership, Teamwork, Collaboration, Rapport Building

PROJECTS

Diabetic Retinopathy — Team Leader & AI Engineer | Prayogam

Nov 2023 – Apr 2024

- Built a deep-learning diagnostic system classifying diabetic retinopathy severity (Mild/Moderate/Severe) from retinal images.
- Trained on 50,000 retinal images from a 20GB Kaggle dataset.
- Raised accuracy from 65% to 80% via dataset expansion, augmentation and architecture tuning.
- Analysed 120+ retinal scans, cutting misclassification by 15%.
 - **Tech Stack:** Python, TensorFlow, Keras, CNN, Kaggle, Data Pre-processing, AI integration.

Brain Tumor Detection — Quality Assurance | 3rd Year Project

Feb 2026 – Apr 2026

- Ran functional and usability testing for an AI-based brain tumour detection app.
- Wrote and executed test cases for image upload, prediction and result display.
- Logged and tracked bugs with developers, verifying fixes and accurate model output.
 - **Tech Stack:** Manual Testing, Test Case Design, Bug Reporting, AI/ML Application Testing

ACHIEVEMENTS & CERTIFICATIONS

- **Achievements:** 50% Merit UG Scholarship • Top 10, Prayogam Inter-University Competition • Top 50, Hack2Skill Hackathon • Google Solution Challenge | **Certifications:** MySQL, Excel, DSA, Cyber-Security, Prompt Engineering
